AccessAccom and My Specialised Accommodation Solutions Partner to Deliver Premium Disability Housing in NSW

Sydney, NSW - AccessAccom, a leading SDA (Specialist Disability Accommodation) Provider company, and My Specialised Accommodation Solutions (MySAS), a specialist disability accommodation developer, have announced a strategic partnership to deliver disability housing across NSW. The \$50 million investment is set to provide innovative and life-changing accommodation solutions for up to 100 people with disabilities across the state.

This partnership marks a significant milestone in the provision of high-quality and sustainable disability housing, as AccessAccom and MySAS bring their respective strengths and expertise to the collaboration. MySAS, with its extensive experience in disability housing funding and development, and AccessAccom, with its leading expertise in providing specialist disability accommodation services, are ideally positioned to deliver innovative and customised housing solutions to people with disabilities.

"The partnership with MySAS is a game-changer for AccessAccom as it allows us to expand our footprint in the NSW market and deliver housing to the people who need it the most," said Matthew Valenti Managing Director at AccessAccom. "Our commitment to empowering people with disabilities to live independently and with dignity will be enhanced through this partnership, and we are excited to work together to achieve this shared goal."

MySAS CEO, Daniel Grynberg, added, "We are thrilled to be partnering with AccessAccom to provide high-quality, innovative and accessible housing for people with disabilities across NSW. By combining our expertise and resources, we can deliver sustainable and purpose-built housing options that will enable people with disabilities to live fulfilling lives, in a home of their own."

The partnership will kick off with several exciting shovel ready projects, including new developments in key locations throughout Sydney and across NSW. These projects will be designed with a focus on accessibility, flexibility and technology, with features such as smart home automation systems and assistive technology.
